ATEX and IECEx Manufacturing Capability

January 3, 2008 – Perpetuum has achieved EN13980:2002 and IECEx OD/005 V2.0 certifications for our manufacturing processes.

The Quality Management certifications have been awarded by the SIRA organization.

With these certifications Perpetuum has been approved to manufacture ATEX and IECEx marked intrinsically safe microgenerators, which are currently being used to power wireless sensor applications.

The SIRA Quality Assurance Notification and IECEx Quality Assurance Report are located on the News page on www.perpetuum.co.uk

About Perpetuum:

UK-based Perpetuum Ltd is the world leader in vibration energy harvesting, producing the first commercially available vibration energy harvester for industry, the PMG17. Using normal vibration created by machinery as a source of energy, the PMG17 is an enabling technology for fast-growing wireless sensor node applications. Perpetuum's innovative power source enables continuous online monitoring for proactive asset management, helping organizations strive toward operational excellence.
